Perfect for any area with  
Humidity and or  
Cold weather, Internal  
wheels will not rust

JS6-HR portable seamless  
gutter machines are capable of  
producing 6", residential grade,  
half round gutter from steel,  
aluminum or copper.

Capable of producing  
approximately 28 feet of half  
round gutter per minute, these  
gutter machines can be used  
in both on-site and in-plant  
operations.
